Index to Volume III--1953

INDEX OF AUTHORS

Abell, R. C. (co-author), Preliminary studies of sludged blood in multiple sclerosis, 250.

Aird, Robert B. (co-author), Ultracentrifuge studies of lipoproteins in multiple sclerosis, 22.

Alpers, Bernard J. (co-author), Retroperitoneal tumor as cause of low back and leg pain, 553.

Anderson, G. W. (co-author), Retroperitoneal tumor as cause of low back and leg pain, 553.

Anderson, Per (co-author), Stimulation of the hippocampus and medial cortical areas in unanesthetized cats, 844.

Aranow, Henry, Jr. (co-author), Therapy of myasthenia gravis, 691.

Arieff, Alex J. (co-author), Clinical, histologic and electrical studies in muscular dystrophies, 35.

Askenasy, H. M. (co-author), Hydrocephalus with vascular malformations of the brain—a preliminary report, 213.

Avol, Milton (co-author), Two cases of Guillain-Barré syndrome treated with cortisone, 935.

Bailey, Allan A. (co-author), Epileptic disorders in the aged, 674.

Bailey, Orville T. (co-author), Tumors arising within the spinal canal in children, 922.

Bailey, Pearce, America's first national neurologic institute, 321. (co-author), Clinical use of Piromen in spinal cord diseases and injury, 684.

Barris, Ralph W. (co-author), Bilateral anterior cingulate gyrus lesions—syndrome of the anterior cingulate gyri, 44.

Bauer, Franz K. (co-author), Myelography by means of I^{131} – the myeloscintigram, 341. (co-author), Studies in neuromuscular diseases with radioactive potassium, 604.

Bayless, Allan E. (co-author), Greater superficial petrosal neurectomy for orbitofacial pain – preliminary report, 707.

Bender, Morris B. (co-author), Perception of simultaneous tactile stimuli in normal children, 27. (co-author), Background illumination and the visual threshold in hemianopic areas, 102. (co-author), Effect of intravenous barbiturates on abnormal involuntary movements, 503.

Bennett, Foster E., Intracarotid and intravertebral Metrazol in petit mal epilepsy, 668.

Bennett, R. E. (co-author), Results of transorbital lobotomy in 400 state hospital patients, 879.

Berg, Leonard, Hypoglycorrhachia of noninfectious origin: diffuse meningeal neoplasia, 811.

Bergman, Philip S. (co-author), Effect of intravenous barbiturates on abnormal involuntary movements, 503.

Bickford, Reginald C. (co-author), Epileptic disorders in the aged, 674.

Blahd, Willam H. (co-author), Studies in neuromuscular diseases with radioactive potassium, 604.

Blustein, Herman (co-author), Bodily state in injuries of the spinal cord, 111.

Boshes, Benjamin (co-author), Studies on the cervical spinal cord of man – sensory pattern after interruption of the posterior columns, 90. (co-author), Variability of the course of the Guillain-Barré syndrome, 789.

Bouman, Harry (co-author), Ammonium chloride as an adjuvant to anticonvulsant medication in epilepsy, 336.

Brackett, Charles E., Jr., Late sequelae of carotid ligation, 316.

Buchthal, Fritz (co-author), Muscle action potentials in myopathies with special regard to progressive muscular dystrophy, 347. (co-author), Muscle action potentials in polymyositis, 424. (co-author), Action potentials in muscular atrophy of neurogenic origin, 591.

Cameron, Douglas G. (co-author), Concerning cerebral vasospasm, 468.

Campbell, John (co-author), Carotidynia, 391.

Campbell, M. Brent (co-author), Ultracentrifuge studies of lipoproteins in multiple sclerosis, 22.

Carpenter, Malcolm B. (co-author), Cerebral arteriovenous aneurysms, 725.

Caudill, C. M. (co-author), Increased intracranial pressure following compression of the superior sagittal sinus, 231.

Chalgren, William S., Neurologic complications of hemorrhagic diseases, 126.

Chor, Herman (co-author), Bodily state in injuries of the spinal cord, 111.

Clark, David B., Clinical pathologic conference, 858.

Claudon, D. B. (co-author), Nonchromaffin paraganglioma of the middle ear and abdomen, 621.

Constable, Kate (co-author), Minor and major tremor – results in 544 treated cases, 360.

Cook, Edward D. (co-author), Metabolism

of copper in hepatolenticular degeneration, 569.
Cooper, Irving S., Disorders of electrolyte metabolism in diseases of the central nervous system, 119. (co-author), Cerebral Lipiodol granuloma, 886.
Courville, Cyril B. (co-author), Clinical pathologic conference, 306.
Craig, Winchell McK. (co-author), Ependymoma of the brain: pathologic aspects, 1.
Crowe, Frank W. (co-author), Neurocutaneous syndromes in the M kindred – a case of simultaneous occurrence of tuberous sclerosis and neurofibromatosis, 904.
DeJong, Russell N. (co-author), Familial primary amyloidosis with nervous system involvement, 399.
Denny-Brown, D. (co-author), Clinical pathologic conference, 615.
Denst, John, Pathologic changes in the brain in coma following ether anesthesia, 239.
Deterling, Ralph A., Jr. (co-author), Revascularization of the brain in mental defectives, 871.
Dobin, Norman B. (co-author), Studies in temperature regulation – 1. response of normal men to changes in environmental temperature, 185.
Dodge, H. J. (co-author), Multiple sclerosis: its frequency and distribution – with special reference to Denver, Colorado, 577.
Doshay, Lewis J. (co-author), Minor and major tremor–results in 544 treated cases, 360.
Drenick, Ernst J. (co-author), Two cases of Guillain-Barré syndrome treated with cortisone, 935.
Drew, A. L. (co-author), Observations on pentosuria in neuromuscular disorders, 563.
Druckemiller, William H. (co-author), Cerebral arteriovenous aneurysms, 725.
Ebert, Robert (co-author), Clinical pathologic conference, 375.
Ecker, Arthur (co-author), Arteriographic evidence of spasm in cerebral vascular disorders, 495.
Ellis, Wilber R., Jr. (co-author), Occlusion of the basilar artery – an unusual case with recovery, 154.
Evans, J. P. (co-author), Carotidynia, 391.
Fay, John (co-author), Cerebrospinal fluid pressure adjustment to change in body position, 916.
Feldman, S. (co-author), Encephalomyelitis in the preicteric stage of infectious hepatitis, 931.
Fink, Max (co-author), Perception of simultaneous tactile stimuli in normal children, 27. (co-author), Spinal fluid findings following cerebral angiography, 137.
Finkelman, Isidore (co-author), Bodily state in injuries of the spinal cord, 111.
Fisher, Miller (co-author), Concerning cerebral vasospasm, 468. Clinical pathologic conference, 698.
Fodors, T. (co-author), Clinical significance of the dissociation of abdominal reflexes, 453.
Foley, Joseph M. (co-author), Clinical pathologic conference, 68. (co-author), Clinical pathologic conference, 615.
Forster, Francis M. (co-author), Quantitative determination of gamma globulin in cerebrospinal fluid – its application in multiple sclerosis, 410.
Freedman, David A. (co-author), Parenchymatous cerebellar syndrome following protracted high body temperature, 513. (co-author), Effect of mesencephalic lesions on the cortical electroconvulsant threshold, 714.
Freeman, David G. (co-author), Neurologic symptoms and signs in 347 cases of verified brain tumor, 437.
Freeman, Irving (co-author), Occlusion of the basilar artery – an unusual case with recovery, 154.
Freeman, Walter, Lobotomy and epilepsy – a study of 1000 patients, 479.
French, John D. (co-author), Greater superficial petrosal neurectomy for orbitofacial pain – preliminary report, 707.
French, L. A. (co-author), Increased intracranial pressure following compression of the superior sagittal sinus, 231. (co-author), Radioisotope investigations on the blood-brain and blood-liquor barrier, 460.
Friedlander, Walter J. (co-author), Clinical use of Piromen in spinal cord diseases and injury, 684.
Friedman, Harris A. (co-author), Studies in temperature regulation – 1. response of normal men to changes in environmental temperature, 185.
Garber, R. S. (co-author), Results of transorbital lobotomy in 400 state hospital patients, 879.
Garoutte, Bill (co-author), Ultracentrifuge studies of lipoproteins in multiple sclerosis, 22.
Garvey, J. L. (co-author), Nonchromaffin paraganglioma of the middle ear and abdomen, 621.
Gillen, H. W. (co-author), Congenital toxoplasmosis, 157.

Gilson, Warren E. (co-author), Ammonium chloride as an adjuvant to anticonvulsant medication in epilepsy, 336.
Gofman, John W. (co-author), Ultracentrifuge studies of lipoproteins in multiple sclerosis, 22.
Goldstein, Norman P. (co-author), Relationship of homologous brain proteolipid to allergic encephalomyelitis in guinea pigs, 609.
Green, Martin A. (co-author), Blood in the subarachnoid space—clinical evaluation of its occurrence in 190 consecutive cases, 721.
Gurdjian, E. S. (co-author), Quantitative determination of acceleration and intracranial pressure in experimental head injury – preliminary report, 417.
Haddad, B. F. (co-author), Quantitative determination of acceleration and intracranial pressure in experimental head injury – preliminary report, 417.
Haines, G. L. (co-author), Increased intracranial pressure following compression of the superior sagittal sinus, 231. (co-author), Radioisotope investigations on the blood-brain and blood-liquor barrier, 460.
Hamby, Wallace B., Obituary – Burton M. Shinners, M.D., 393.
Hardy, R. C., Management of head injuries, 773.
Heimburger, Robert F. (co-author), Intramedullary spinal cord metastases from lung carcinoma – simulating primary cervical cord tumor, 311.
Henderson, John W. (co-author), Neurologic symptoms and signs in 347 cases of verified brain tumor, 437.
Hepler, Opal E. (co-author), Studies in temperature regulation. – 1. response of normal men to changes in environmental temperature, 185.
Herzberger, E. E. (co-author), Hydrocephalus with vascular malformations of the brain – a preliminary report, 213.
Hess, Walter C. (co-author), Quantitative determination of gamma globulin in cerebrospinal fluid – its application in multiple sclerosis, 410.
Hoefer, Paul F. A. (co-author), Therapy of myasthenia gravis, 691.
Hogan, H. W. (co-author), Primary brain tumors in patients over age 60, 586.
Hogg, Bruce M. (co-author), Revascularization of the brain in mental defectives, 871.
Hunt, Arthur B. (co-author), Neurologic lesions in relation to sequelae of birth injury, 139.
Hyman, Irving (co-author), Metabolism of copper in hepatolenticular degeneration, 569.

SUBJECT INDEX

Abdomen, nonchromaffin paraganglioma of, 621.
Acceleration, quantitative determination of, in experimental head injury, 417.
Actinomycosis of the nervous system, 761.
Action potentials in muscular atrophy of neurogenic origin, 591.
Adie's syndrome and the Adler-Scheie Mecholyl test, 910.
Adler-Scheie Mecholyl test, 910.
Aged, epileptic disorders in, 674.
American Academy of Neurology, program of 1953 meeting, 234.
America's first national neurologic institute, 321.
Ammonium chloride as an adjuvant to anticonvulsant medication in epilepsy, 336.
Amyloidosis, familial primary, with nervous system involvement, 399.
Analgesia, pain and, recent experimental studies on, 656.
Anesthesia, ether, pathologic changes in the brain following, 239.
Aneurysm in the third ventricle, 474.
Aneurysms, cerebral arteriovenous, 725.
Angiography, cerebral, spinal fluid findings following, 137.
Anterior cingulate gyri, syndrome of, 44.
Anticonvulsant medication in epilepsy, ammonium chloride as adjuvant to, 336.
Aphasic and non-aphasic brain injured subjects, intellectual functions in, 202.
Aphasic difficulties understanding spoken language, 176.
Arteriographic evidence of spasm in cerebral vascular disorders, 495.
Background illumination and visual threshold in hemianopic areas, 102.
Barbiturate intoxication, 58.
Barbiturates, effect of intravenous, on abnormal involuntary movements, 503.
Basilar artery, occlusion of, 154.
Bilateral anterior cingulate gyrus lesions – syndrome of anterior cingulate gyri, 44.
Birth,
  injury, neurologic lesions in relation to sequelae of, 139.
  order of, factor in epilepsy, 679.
Blood-brain barrier, 460.
Blood in the subarachnoid space – a clinical evaluation of its occurrence in 190 consecutive cases, 721.
Blood-liquor barrier, radioisotope investigations on, 460.
Bodily state in injuries of spinal cord, 111.
Book reviews, 74, 159, 237, 319, 395, 477, 550, 703, 783, 869, 939.
Brain,
  ependymoma of: pathologic aspects, 1.

hydrocephalus with vascular malformations of, 213.
injured subjects, intellectual functions in, 202.
pathologic changes in, following ether anesthesia, 239.
pathways for deep pain within, 163.
proteolipid, homologous, relationship to allergic encephalomyelitis, 609.
revascularization of, in mental defectives, 871.
tumor, verified, neurologic symptoms and signs in, 437.
tumors, primary, in patients over 60, 586.
Carotid ligation, late sequelae of, 316.
Carotidynia, 391.
Case reports, 154, 157, 231, 311, 316, 384, 391, 468, 474, 621, 864, 931, 935.
Central nervous system,
disorders of electrolyte metabolism in disease of, 119.
in thrombotic thrombocytopenic purpura, 267.
Cerebellar artery, superior, occlusion of, 77.
Cerebellar syndrome, parenchymatous, following high body temperature, 513.
Cerebral angiography, spinal fluid findings following, 137.
Cerebral arteriosclerosis, hemangioendotheliomatous meningioma simulating, 737.
Cerebral arteriovenous aneurysms, 725.
Cerebral complications of serum sickness, 277.
Cerebral Lipiodol granuloma, 886.
Cerebral vascular disorders, arteriographic evidence of spasm in, 495.
Cerebral vasospasm, concerning, 468.
Cerebrospinal fluid,
pressure adjustment to change in body position, 916.
quantitative determination of gamma globulin in, 410.
total protein content, in multiple myeloma, 369.
Cerebrospinal rhinorrhea with pituitary tumors, 864.
Cervical cord tumor, primary, intramedullary spinal cord metastases simulating, 311.
Change in body position, cerebrospinal fluid pressure adjustment to, 916.
Children,
normal, perception of simultaneous tactile stimuli in, 27.
tumors arising within the spinal canal in, 922.
Choreic movements, role of pallidum in, 261.
Chromophobe pituitary adenoma, management of, 825.
Cingulate gyrus lesions, 44.
Clinical, histologic and electrical studies in muscular dystrophies, 35.
Clinical pathologic conferences, 68, 148, 226, 306, 375, 466, 615, 698, 779, 858.
Clinical significance of the dissociation of abdominal reflexes, 453.
Clinical use of Piromen in spinal cord diseases and injury, 684.
Concerning cerebral vasospasm, 468.
Congenital toxoplasmosis, 157.
Continuous symptoms, occurrence in epilepsy patients, 297.
Copper, metabolism of, in hepatolenticular degeneration, 569.
Cortical areas, stimulation of, in unanesthetized cats, 844.
Cortical electroconvulsant threshold, effect of mesencephalic lesions on, 714.
Cortisone,
multiple symmetrical polyneuropathy treated with, 661.
Guillain-Barré syndrome treated with, 935.
Decamethonium, sensitivity of myasthenia gravis patients to, 284.
Denver, Colorado, frequency and distribution of multiple sclerosis in, 577.
Diagnostic value of skin discolorations in neurology, 800.
Disorders of electrolyte metabolism in diseases of the central nervous system, 119.
Dorsal roots, in muscular physiology, 53.
Effect of
intravenous barbiturates on abnormal involuntary movements, 503.
mesencephalic lesions on the cortical electroconvulsant threshold, 714.
Tensilon in myasthenia gravis, 302.
Themisone and Phenurone on electrically-induced seizures in the salamander, 890.
Electroencephalographic studies of infants and children who acquired intracranial injuries at birth, 544.
Electrolyte metabolism, disorders of, in diseases of central nervous system, 119.
Encephalomyelitis,
allergic, relationship of homologous brain proteolipid to, 609.
in the preicteric stage of infectious hepatitis, 931.
Ependymoma of the brain: pathologic aspects, 1.
Epilepsy,
ammonium chloride as adjuvant to anticonvulsant medication in, 336.
lobotomy and, 479.
"continuous symptoms" in, 297.
order of birth factor in, 679.
petit mal,

intracarotid and intravertebral Metrazol in, 668.
Prenderol in, 744.
practical considerations in treatment of, 221.
relation to tussive syncope, 16.
Epileptic disorders in the aged, 674.
Experimental intracisternal injection of polymyxin B – its role in the treatment of septic meningitis, 831.
Experimental intraventricular and intracerebral injection of polymyxin B in the cat, 896.
Extrapyramidal system – an inquiry into the validity of the concept, 627.
Familial primary amyloidosis with nervous system involvement, 399.
Gamma globulin, quantitative determination of, in cerebrospinal fluid, 410.
Granuloma, cerebral Lipiodol, 886.
Greater superficial petrosal neurectomy for orbitofacial pain—preliminary report, 707.
Guillain-Barré syndrome,
two cases treated with cortisone, 935.
variability of course of, 789.
Head injuries, management of, 773.
Head injury, acceleration and intracranial pressure in, 417.
Hemangioendotheliomatous meningioma simulating cerebral arteriosclerosis, 737.
Hemianopic areas, visual threshold in, 102.
Hemorrhagic diseases, neurologic complications of, 126.
Hepatitis, infectious, encephalomyelitis in preicteric stage of, 931.
Hepatolenticular degeneration, metabolism of copper in, 569.
Hippocampus, stimulation of, 844.
Hydrocephalus with vascular malformations of the brain – preliminary report, 213.
Hypoglycorrhachia of non-infectious origin: diffuse meningeal neoplasia, 811.
I^{131}, myelography by means of, 341.
Increased intracranial pressure following compression of superior sagittal sinus, 231.
Infants and children who acquired intracranial lesions at birth, EEG studies of, 544.
Injuries, non-neural, sensory and motor loss after, 327.
Intellectual functions in aphasic and non-aphasic brain injured subjects, 202.
Intoxication, barbiturate, 58.
Intracarotid and intravertebral Metrazol in petit mal epilepsy, 668.
Intracranial injuries, EEG studies of, 544.
Intracranial pressure,
increased, following compression of superior sagittal sinus, 231.
quantitative determination of, in experimental head injury, 417.
Intramedullary spinal cord metastases from lung carcinoma – simulating primary cervical cord tumor, 311.
Involuntary movements, abnormal, effect of intravenous barbiturates on, 503.
Is order of birth a factor in epilepsy?, 679.
Is the order of birth a factor in epilepsy?, 679.
Language, spoken, aphasic difficulties understanding, 176.
Late sequelae of carotid ligation, 316.
Lesions,
bilateral anterior cingulate gyrus, 44.
mesencephalic, effect of, on cortical electroconvulsant threshold, 714.
neurologic, in relation to birth injury, 139.
Lipoproteins, ultracentrifuge studies of, in multiple sclerosis, 22.
Lobotomy,
and epilepsy – study of 1000 patients, 479.
transorbital, results of, 879.
Lung carcinoma, intramedullary spinal cord metastases from, 311.
M kindred, neurocutaneous syndromes in, 904.
Management of
chromophobe pituitary adenoma, 825.
head injuries, 773.
Mecholyl test, Adie's syndrome and, 910.
Meningioma, hemangioendotheliomatous, simulating cerebral arteriosclerosis, 737.
Meningitis, septic, treatment of, with polymyxin B, 831.
Mental defectives, revascularization of brain in, 871.
Metabolism of copper in hepatolenticular degeneration, 569.
Metrazol in petit mal epilepsy, 668.
Middle ear, nonchromaffin paraganglioma of, 621.
Minor and major tremor – results in 544 treated cases, 360.
Motor loss after non-neural injuries, 327.
Multiple myeloma, total protein content of cerebrospinal fluid in, 369.
Multiple sclerosis,
quantitative determination of gamma globulin in cerebrospinal fluid in, 410.
its frequency and distribution – with special reference to Denver, Colorado, 577.
studies of sludged blood in, 250.
ultracentrifuge studies of lipoproteins in, 22.
Multiple symmetrical polyneuropathy treated with cortisone, 661.
Muscle action potentials

in myopathies with special regard to progressive muscular dystrophy, 347.
in polymyositis, 424.
Muscular atrophy of neurogenic origin, action potentials in, 591.
Muscular dystrophies, clinical, histologic and electrical studies in, 35.
Muscular dystrophy, progressive, muscle action potentials in, 347.
Muscular physiology, dorsal roots in, 53.
Myasthenia gravis,
effect of Tensilon in, 302.
sensitivity of patients, to tubocurarine and decamethonium, 284.
therapy of, 691.
Myelography by means of I^{131} – the myeloscintigram, 341.
Myeloscintigram, 341.
National neurologic institute, 321.
Neoplasia, diffuse meningeal, 811.
Nervous system,
actinomycosis of, 761.
involvement, familial primary amyloidosis with, 399.
Neurectomy for orbitofacial pain, 707.
Neuritis, ascending, 327.
Neurocutaneous syndromes in the M kindred – a case of simultaneous occurrence of tuberous sclerosis and neurofibromatosis, 904.
Neurofibromatosis, tuberous sclerosis and, simultaneous occurrence of, 904.
Neurologic complications of hemorrhagic diseases, 126.
Neurologic lesions in relation to sequelae of birth injury, 139.
Neurologic symptoms and signs in 347 cases of verified brain tumor, 437.
Neuromuscular diseases, studies in, with radioactive potassium, 604.
Neuromuscular disorders, pentosuria in, 563.
Nonchromaffin paraganglioma of middle ear and abdomen, 621.
Observations on pentosuria in neuromuscular disorders, 563.
Occlusion of the
basilar artery, 154.
superior cerebellar artery, 77.
Occurrence of "continuous symptoms" in epilepsy patients, 297.
Pain
and analgesia, recent studies on, 656.
deep, pathways for, within spinal cord and brain, 163.
low back and leg, retroperitoneal tumor as a cause of, 553.
orbitofacial, greater superficial petrosal neurectomy for, 707.
Pallidum in choreic movements, 261.
Paraganglioma, nonchromaffin, of middle ear and abdomen, 621.
Parenchymatous cerebellar syndrome following protracted high body temperature, 513.
Pathologic changes in the brain in coma following ether anesthesia, 239.
Pathways for deep pain within the spinal cord and brain, 163.
Pediatric neurology, 139, 544, 922.
Pentosuria in neuromuscular disorders, 563.
Perception of simultaneous tactile stimuli in normal children, 27.
Phenurone, effect on seizures, 890.
Piromen, clinical use of, in spinal cord diseases and injury, 684.
Pituitary tumors, cerebrospinal rhinorrhea with, 864.
Polymyositis, muscle action potentials in, 424.
Polymyxin B,
experimental intracisternal injection of, in treatment of septic meningitis, 831.
experimental intraventricular and intracerebral injection of, 896.
Polyneuropathy, multiple symmetrical, treated with cortisone, 661.
Posterior columns, interruption of, 90.
Potassium, radioactive, studies in neuromuscular diseases with, 604.
Potency of isolated brachial dorsal roots in controlling muscular physiology, 53.
Practical considerations in the treatment of epilepsy, 221.
Preliminary studies of sludged blood in multiple sclerosis, 250.
Prenderol: a new drug used with retarders in petit mal epilepsy, 744.
Primary brain tumors in patients over age 60, 586.
Protein content of cerebrospinal fluid in multiple myeloma, 369.
Proteolipid, homologous brain, relationship to allergic encephalomyelitis, 609.
